Opportunity Profile

FINANCIAL ANALYST, CORPORATE RESTRUCTURING *Chicago, IL*

COMPANY DESCRIPTION

Our client is a financial consulting firm focused in the areas of business reorganization and restructuring, insolvency consulting, and distressed M&A transaction advisory services. The group is a consulting arm of a larger full-service business advisory firm that was established over 90 years ago and employs 450 professionals.

The consulting teams have completed complex engagements involving a large variety of industries, including retail, manufacturing, distribution, business services, transportation and technology.

POSITION RESPONSIBILITIES

Work on teams and develop financial and operational analyses in engagements for companies typically in distressed, turnaround, reorganization or restructuring situations. Client engagements in which the Associate will work include:

- Financial Consulting
- Business Assessment
- Financial Advisory / Profitability Improvement
- Liquidity Analysis
- Business Valuation
- M&A Transaction Advisory, typically involving distressed sales
- Litigation Support
- Bankruptcy and Corporate Turnaround Consulting

DESIRED SKILLS AND EXPERIENCE

Successful contributors will demonstrate strong financial modeling, analytical skills, and exceptional collaborative interpersonal skills with team members and clients. Ability to quickly adjust to and support client needs.

- CPA or CFA strongly desired; .
- Big 4 or major regional accounting firm audit / assurance experience strongly desired;
- Excellent communication (written and verbal), presentation, and organizational skills;
- Solid working knowledge of financing and accounting through college undergraduate major, work experience, Big 4 or major regional accounting firm training;
- Analytical skills (ability to quickly understand complex business issues, creative problem solving, quantitative analysis, work flow processes, etc.);
- Ability to collaborate with client personnel and other professionals, in deadline-driven situations;
- Ability to work independently in a fast-paced environment;
- Willingness to research, analyze and develop new skills;
- Financial modeling;
- Willing to travel part-time.

Downtown Chicago location. Strong preference for a professional already domiciled in Chicago.
